Ziramba

Ziramba marketplace feedbacks

Responsiveness:

Tablets:

- On IPad and other tablet devices with 768 x 1024 | 800 x 1280, some header options and top bar are not displayed

Mobile Devices:

- Add to cart button is missing styling
- Financing page hero section is not responsive (Missing paddings)
- Top bar is not displayed
- Get InTouch on footer section is not well organized

Web UI:

- Login /register missing "back to home "link
- Reset password page on client and seller is missing css styling
- Seller homepage is missing fonts
- Check order status section needs spacing
- Terms / privacy policy pages are missing fonts, company logo, and a back to marketplace link
- Details/remove options on cart UI can be improved

Personal inputs

- The navigation bar can remain fixed on page scroll to ease navigation
- Add a scroll to top button option
- We can add a skeleton loading effect while calling products and stores from the backend
- Add a "Sell to Ziramba" link either in hero section or header
- We can have s shop by categories / brands section on the homepage
- Client and seller login and register pages UI can be improved
- The seller homepage hero section UI can be improved
- We can have a specific contact us page instead of having it down
- On product details images, we can add a zoom option to view it well
